

G360™ Mobile, G360™ Off-line – MSA's Reporting Solutions

Business intelligence and sales execution on your desk or in the palm of your hand.

G360™ Mobile

A gateway for persistent data analytics on any device, any browser for any data

- HTML5, multi-domain business intelligence platform
- Insights and KPIs from intuitive dashboards
- Customizable to deliver analytics and reports throughout the various levels of an organization
- Currently deployed in several languages

G360™ Off-line/Survey Module add-on

2-Way communication assisting in-store reps where internet and phone service are lacking

- KPI dashboards and reports aid in generating more in-store sales
- Identify/order in-store for out-of-stock, out-of-distribution or rebate program opportunities
- Survey module is available for collecting specific information at the store level
- Upload photos for compliance validation of vendor racks or planograms
